- Protected areas**
- Water protection area
- Administrative areas**
- Municipal boundaries

**Interpretation**

The map gives an overview of the area of Eisenerz and the Erzberg in Styria, Austria. A mosaic of aerial images acquired on 05/09/2019 with a spatial resolution of 0.2 m serves as backdrop of the map. Additional geodata was used to provide information on specific points-of-interest, transportation infrastructure and environmental characteristics/ regulations.

The map has been produced in the scope of the FP7 EU project "Driving Innovation in Crisis Management for European Resilience" (DRIVER+) and the full scale civil protection exercise IRONORE2019 that take place in parallel in the area of Eisenerz, Styria, in September 2019.

**Cartographic Information**

0 125 250 500 750 Meters

Local projection: UTM Zone 33N, Datum: WGS 84  
Geographic projection: Lat/Lon (DMS), Datum: WGS 84  
Scale: 1:8,000 for A1 prints.

**Data Sources**

Vector data (POIs, transport infrastructure, protected areas, water network, administrative boundaries) CC-BY-4.0: Land Steiermark - data.steiermark.gv.at

Vector data (bridges/ tunnels - minor roads, gas stations) © OpenStreetMap Contributors 2019

Aerial Imagery (0.2 m) © DLR, 2019

**Framework**

The map was produced using state-of-the-art technology. All geographic information has limitations due to the scale, resolution, date of recording and interpretation of the original source materials. No liability concerning the content for the use thereof is assumed by the producer.
