

Exercise

Legend

- Points of Interest**
 - Firestation
- Transport infrastructure**
 - Bridge
 - Bus stop
 - Residential road
 - Rail track (other)
- Hydrology**
 - River/stream
- Building inventory**
 - Building

Interpretation

The map gives a detailed view on the area around the Erzberg, Styria, Austria. Amosaic of aerial images acquired on 05/09/2019 with a spatial resolution of 0.2 m serves as backdrop of the map. Additional geodata was used to provide information on buildings, transportation infrastructure and environmental regulations.

The map has been produced in the scope of the FP7 EU project "Driving Innovation in Crisis Management for European Resilience" (DRIVER+) and the full scale civil protection exercise IRONORE2019 that take place in parallel in the area of Eisenerz, Styria, in September 2019.

Cartographic Information

0 25 50 100 150 200 250 Meters
 Local projection: UTM Zone 33N, Datum: WGS 84
 Geographic projection: Lat/Lon (DMS), Datum: WGS 84
 Scale: 1:2,500 for A1 prints.
